

# Homemade Silly Putty Recipe

## Ingredients:

1 Cup Elmer's School Glue  
1 Cup Sta-Flo Liquid Starch  
8-12 drops Food Coloring

## Directions:

Pour all ingredients in a large container. Use hands to combine ingredients. It will be very slimy and stringy at first, but keep mixing and it will eventually get more solid. If the mixture is sticky and goo-ey, it needs more starch. If it is slimy and stringy, it needs more glue. Store in an airtight container like a plastic bag or even a plastic Easter egg!
